

ENGINEERING

Innovation and Custom Design are a core part of our business and values. Does your organization require a unique piece of equipment or DHT for a project? Does Coil Solutions offer a tool that you require modified?

Our in-house design team can work with you to create a new tool to suit or modify an existing design to better accomplish your end goal. We pride ourselves on being responsive and creative, working with our customers to meet their project requirements.

Contact a member of Coil Solutions Sales Team today to get the ball rolling on any custom design inquiry you have.

ABOUT COIL SOLUTIONS
Coil Solutions Inc. is an industry leader and innovator in coil tubing solutions and downhole tools. We are proud to be on the leading edge of change in next generation technology for enhanced oil recovery.

RANGLAR MANUFACTURING
Ranglar is Coil Solutions' manufacturing arm offering customized mobile equipment and a wide range of bespoke services including repairs, inspections, welding, fabrication, plasma cutting, sand blast and painting services.
