MPL Laboratories - Microbiology Lab

MPL Laboratories (formerly Marypaul Laboratories) was founded in 1985 as a full service microbiology laboratory. We are ISO/IEC 17025 accredited by P1JA, FDA and DEA registered, and NJDEP certified. Our staff includes a M.S. and B.S. degreed microbiologists. MPL Laboratories laboratory is a privately held microbiology testing laboratory serving the pharmaceutical, medical device, cosmetic, personal care and food industries. We aim to provide our clients with high quality, reliable test data in a timely manner. We offer competitive prices and experienced consultation.
