Subject: WiCell Services Update

During these uncertain times, WiCell remains open and dedicated to providing you with the same high-quality products and services as always.

In an effort to further assist you during these times and offer support during future unforeseen events, we have been working hard to release our newest service offering ahead of schedule. We are pleased to announce WiCellSAFE, our long-term LN₂ storage solution.

When you store your valuable materials with WiCellSAFE, you can have confidence that the materials you entrust to us will remain safe and secure until you need access to them again. We will treat your critical materials as if they were our own, protecting your research from the potential disaster often associated with power outages, equipment failures, and other catastrophic events.

Safeguard your materials today. Visit our [WiCellSAFE \[click.icptrack.com\]](http://click.icptrack.com) webpage to learn more.

QUALITY CELL LINES. RIGOROUS TESTING.
