# MAG:LATCH, The Secret Sauce

MAG:LATCH comes together in milliseconds thanks to the magnetic enhanced mechanical latch buckle, and it starts to engage when the male & female attachments are ~3 inches away from each other.\* MAG:LATCH has been rigorously tested and does the job of securing the dog in quick bursts of speed or with strong constant tugging during a walk or run. The magnet is not what holds the leash and collar together, it simply activates the quick connection. Once activated, it's the hot forged aluminum latch that keeps your dog securely reigned in when on leash.

\*The Safety Slider must be activated anytime the MAG:LATCH is in use

## Padded Handle and Bungee Stretch

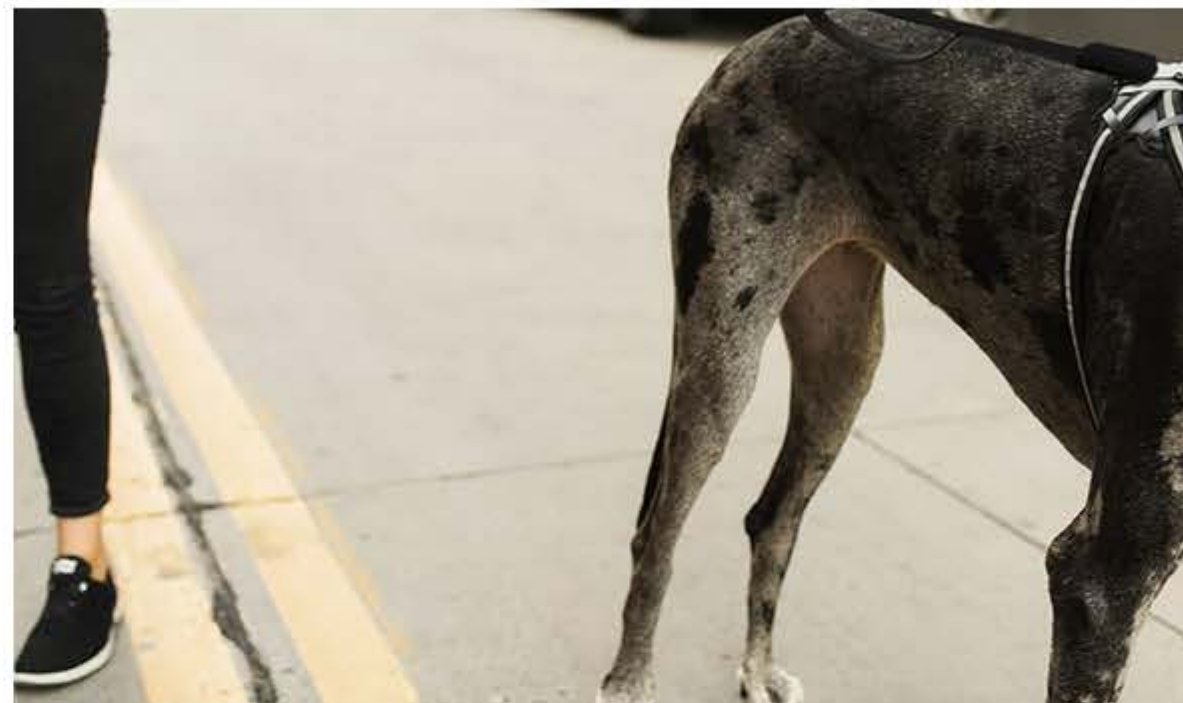

We've added neoprene to the short and long lead handles for ultimate comfort for you. For Fido's neck and your shoulders, we've integrated a tubular bungee for less whiplash when Fido spots a squirrel.

**Love this product!**  
I recently purchased two magdog collars for family: one that is a hunter and the other who lives in the mountains of Colorado. Both loved the easy adjustments of the collar and how versatile the product could be used. 10/10 recommend for all looking for a collar that is easy to use and for outdoor dogs of all sizes!
