

beauty, fitness, rehabilitation, chiropractic, and health & wellness products.

Our 72-year history includes building one of the largest distribution businesses that provided medical supplies to chronic disease patients in the U.S. This required expertise in managing sku-intensive, life-sustaining supplies critical to the well-being of our customers. Experience servicing the consumer, professional and business-to-business markets has built a strong standard of distribution rigor and precision for the more than 1,300 manufacturers we represent today.

We are  
**our  
people.**

Boxout is powered by a dedicated, talented team with a clear focus. Our shared commitment to health and wellness unites us in pursuing excellence.

We are  
**charitable.**

Our employees are passionate about giving back and serving the community. Everyone receives company paid time to assist a non-profit organization of their choice. As a team, we participate in projects throughout the year to support charities —we give from the heart.

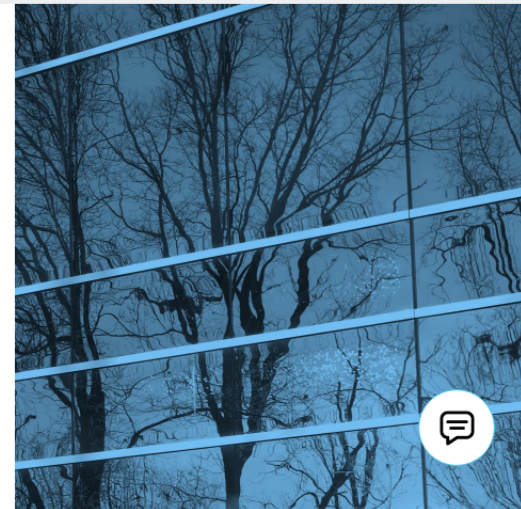

## We are leaders.

Boxout is a family company managed by an experienced and sophisticated leadership team.

## We are planet focused.

As individuals and as a company, we are proud to be implementing a comprehensive five-year plan that will bring about both large- and small-scale changes.
