Best hand
cream ever.

June 20, 2020

Hope this helps. It is moisturizing, quickly absorbs, and it has a very pleasant and clean smell. I wear it when I go to bed and in the morning my hands smell so good and are soft. I would definitely buy this cream again when on sale as the regular price is too high for me to pay for a hand cream. I purchased this on sale and this has to be one of the best hand creams I've ever used.
