PRODUCT DETAILS

It's true—we made our roomy signature tote *even more* versatile, giving you three different ways to carry it. Use the long-enough-to-sling-over-your-shoulder handles or try the new adjustable crossbody strap which attaches both on top (when you need lots of extra space) or at the fold (when you want to keep your things under wraps). Crafted from luxe and durable leather, it's the kind of goes-with-everything bag you'll hold onto for years to come.

Love it. Treated myself for my birthday! Feels very durable and I love the spacious size as a tote! But also that you can fold it for a mid-size purse. This purse feels like the kind of purse that will get better with time; kind of like an old pair of jeans. I highly recommend it. Pairs great with blue Madewell jeans.

This is a very simple chic bag that can be used as a tote, shoulder bag or oversized clutch. The color is more brown than red. It's like wine infused deep chocolate. Perfect for Fall. The bag is very simply designed inside and out. It will break-in nicely. I am going back for the Saddle color. It's worth the price. Wish monogram had been available.

Let me start by saying, I own a lot of madewell bags of all variety. This has got to be one of my faves. The versatility is so on-point, and especially love the option to change out the bag strap as well. Can't wait to wear it down with age!
