Download SiteLink Web Edition

SiteLink Web Edition for Windows 7, Windows 8 and Windows 10.

Before installing, please make sure you have administrative rights to the computer so you can complete the process. We strongly recommend you **disable the User Account Control (UAC) feature of Windows 7, Windows 8 and Windows 10**, otherwise you may experience problems getting periodic updates, which may require a complete re-installation.
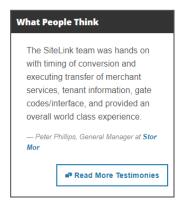

To install:

1. Click the blue button below and the file "Install_SiteLink.exe" will be saved to your computer (you can search your computer for the file "Install_SiteLink.exe" if you have difficulty locating it.) Some browser's may first ask if you want to download or save the file, click Yes.

2. From your PC, double-click the file "Install_SiteLink.exe" to install the SiteLink Web Edition software and Corporate Control Center software and follow the prompts.

What People Think

The SiteLink team was hands on with timing of conversion and executing transfer of merchant services, tenant information, gate codes/interface, and provided an overall world class experience.
