DESCRIPTION

Living in an RV comes with its challenges. You have to pack all of your provisions, bags, and boxes into a small space, take care to maintain the space, inside and out, and accomplish tasks such as emptying out the black water tank and filling up the fresh water tank. While the RV life is wonderful, it can also be quite difficult. But in all

Customer Reviews

iture should not be included in the list. The place where you relax should be easy and ou the comfort you need to sit down and put your feet up or even fall asleep after a long

With our multifunctional EZ-OUT Trifold Loveseat Sleeper, you can take advantage of both the comfort of the piece and the functionality. Because it can be both a bed and a loveseat, this piece of furniture helps save you space and frustration. If a guest comes over, you don't need to worry about where they will sleep or whether you'll need to clean up the table to extend the dinette. Instead, you can just pull the bed out of this Trifold and lay out the blankets. With the style of this piece, you get an attractive look, a comfortable couch or bed, and a functional part of your RV interior.

Ah, but what about actually using it? Is it like so many hide a beds out there that take a ton of time to set up and don't make up for that with comfort? No, not at all. These EZ-OUT Trifold sofas work with a smooth motion of pulling the seat cushion up and setting it on the floor. Simple as that. All that's left is setting out the sheets and relaxing. With the durable internal mechanisms and spring-loaded design, you can just push the seat cushion back into place and let it fall. No more trying to gently set it in there to make sure nothing is damaged. The springs do all the work for you. Even before you use it, it's easy. It can fit through the small opening of a 25" door opening and doesn't need installed. Just flip up the back and arrange the back cushions then you're all ready to go.

The material of these sofas is our Cloth fabric, a breathable fabric that looks great, feels terrific, and is built to last. Durable and resistant to UV rays and water, it's easy to clean and will keep looking nice even after many years. The fill is our bounce-back memory foam combination fill that provides support and comfort while you relax.

Whether you're tired of dealing with your old hide a bed, want to add some sleeping and relaxing area to your interior, or are just looking for something new, this 62" EZ-OUT Trifold loveseat sofa is an option that will liven up your RV and enhance your RVing experience. Have any questions? Contact us online or call our friendly Customer Care team today!

Disclaimer:

Keep the bed free from any items before placing the cushions back into the sofa. Only grab the seat cushions from the front, rather than the center or back cushion or from the sides of the front cushion. Do not stand on the back cushion while open in the bed form; this will cause the cushions to start to transition back into the sofa.

Any modification outside of manufacturer's suggested use (including, but not limited to, adding or removing mounting hardware, seat belts, brackets, clamps, etc.) immediately voids all warranties and waives liability from the manufacturer and all their subsidiaries

/easy it to assemble and install?

0 votes

How much does this one weigh?

It is very heavy. It came in one piece and it took 3 of us to get it inside. Could have used 4 people.

✓ "Great buy" Verified Buyer

August 13, 2021 by Jerry T. (united states)

"Love it."

Haven't Used Yet

March 18, 2021 by ACH

"Just installed this yesterday so I'm unable to review it as a bed but it appears well made and sturdy. My only gripe is that it claims to be able to fit thru' a 25" door but that's not true. We had to remove the feet to accommodate the move in. Not a huge deal other than moving that weight more than once was not fun."
