**Question:** Will this work with 5g or on band 71?

**Answer:** Only 4G. Yes on band 71.  
By Alvin York on November 9, 2021

**Question:** Is the Wifi activated or do you have to pay the \$100.00 fee to get it activated?

**Answer:** The wifi is activated. There is no need to pay for wifi activation. The \$100.00 fee is for peplink's speed fusion service which is an enterprise platform. If you are not a company equipping a fleet of vehicles speed fusion is not necessary.

### Warranty & Support

Amazon.com Return Policy: You may return any new computer purchased from Amazon.com that is "dead on arrival," arrives in damaged condition, or is still in unopened boxes, for a full refund within 30 days of purchase. Amazon.com reserves the right to test "dead on arrival" returns and impose a customer fee equal to 15 percent of the product sales price if the customer misrepresents the condition of the product. Any returned computer that is damaged through customer misuse, is missing parts, or is in unsellable condition due to customer tampering will result in the customer being charged a higher restocking fee based on the condition of the product. Amazon.com will not accept returns of any desktop or notebook computer more than 30 days after you receive the shipment. New, used, and refurbished products purchased from Marketplace vendors are subject to the returns policy of the individual vendor.

## Product Description

With a footprint of 4.1 x 4.3 inches, the Transit Mini can fit in just about any small space. It can be powered using Passive PoE, reducing the number of wires in the vehicle. Most importantly, the Transit Mini can be remotely managed by InControl cloud management\*. This enables you to bulk push configurations and firmware updates, ensuring infinite scalability.

Got this thing for a camper build and finally got around to wiring it in... won't even power on. Past my 30 day return window. Great. Went to the Peplink site to get support, serial number comes up as an RMA and they don't support it. Seller is selling junk returns that likely are defective and were returned for a reason. You'll also be outta luck getting any support. Amazon needs to screen their sellers better. DO NOT BUY from TSR.COM. Furious.
