Rob -

I truly enjoyed speaking with you and learning about the Student Leadership Network - CollegeBound Initiative. Thank you for taking the time to learn more about [Kool Nerd Connect](#) [KNC]; see attachment. I am happy you connected with the work we are doing to increase diverse students' awareness of in-demand industries and careers. As employers are struggling to find workers, we aim to have our diverse students become candidates for employment in high demanding careers. As discussed, KNC does this by offering a number of live-online industry-career awareness courses to increase students' awareness of in-demand industries and their associated careers. The industry-career courses we currently offer are business administration, healthcare industry, education industry and foundation [soft] skills; other industry courses are being developed.

As for next steps, I would like to take up your offer for an introduction to your colleagues and / or to the various Principals at the schools you are aligned with. I would like the opportunity to present KNC, to discuss our industry-career awareness courses and to review the results of our industry-career courses to increase students' awareness of and interest in pursuing in-demand careers.

Thank you again for your time and I look forward to hearing from you.
