

Certificate of Product**Product:** BACGene Salmonella spp.**Lot:** 19081710**Cat. no.:** 5123221801**Exp. date:** 11-2019

Item	Lot-No.	Store at:
BACGene Salmonella spp. Mastermix, PCR plate with pre-dispensed MasterMix	19051717	-20°C
Salmonella positive control, 50 µL plasmid DNA	19061701	-20°C
Lysis buffer I, 4 mL	18991708	4°C
Proteinase K, 500 µL	19041709	-20°C
Lysis plate, for sample preparation, rippable	19341401	RT
Domed caps, for use with lysis plate, set of 12 strips	19351401	RT
Optical caps, for use with PCR plate, mat of 12 strips, rippable	19361401	RT
PCR support frame	19371401	RT

Quality Control:

This product has successfully passed quality control and meets our internal specifications. The Batch release was performed with strain Salmonella enterica, DSMZ no: 19587, ATCC no: 14028.

The production of the product is carried out with best carefulness. We guarantee the above mentioned specification through our QM system. The CoP doesn't release you from performing the standard control upon receipt of incoming goods.
