

System Requirements

Ultima Forte is a Windows-based application that operates independently on any PC which meets the following minimum system requirements:

- Pentium 4, 3 GHz processor
- OS Windows 2000 / XP / Vista
- MS Office 2000 / XP / 2003
- 2 GB RAM (for handling large environments)
- 300 MB disk space for the Ultima Forte application and 100 MB for the log file (located on drive C) - Total of 400 MB if installed on drive C.
- Additional disk space for storing mobile measurements raw data and the application DB (can vary between 500 MB to 100 GB depending on the vendor and the period of data collection). This data can be stored on a network drive or on the local hard disk.
- Monitor resolution: 1024*768
- Available USB port for security dongle (optional)

Assistance

Ultima Forte users are provided with the following assistance:

Online Help (OLH)

Two OLH systems are provided with the software:

- This OLH, which can be accessed from the **Help** menu or by pressing **F1** on your keyboard. The OLH includes a [glossary of terms and abbreviations](#).
