Esker Company Overview

Quit Paper and Automate Any Document Process

Esker is a worldwide leader in document process automation solutions, helping organizations around the globe to eliminate paper and improve business processes. Esker offers a best-of-suite solution (on-demand and on-premise) to automate every type of business information exchange, as well as a unique value to businesses running SAP. Thousands of Esker solutions worldwide enable customers to reduce processing time and costs by at least 40%, greatly increase their competitive advantages, gain significant and immediate operational efficiencies, achieve cost savings, and realize measurable ROI in as little as three to six months.

Cloud Computing

Esker is committed to cloud-based business applications and offers a 100% cloud computing automation solution based on its own technology, platform, and infrastructure. Esker believes Software as a Service (SaaS) is the appropriate model to facilitate the general and widespread use of document process automation solutions. SaaS customers gain valuable automation efficiencies without the need to buy, build, and maintain IT infrastructure to support the technology.

Eliminate Paper, Improve Business Processes and Simplify IT Landscapes with Esker Document Process Automation Solutions

Esker solutions speed up the revenue cycle, improving customer satisfaction and increasing profitability. For organizations running SAP applications or other ERP systems, Esker offers a comprehensive solution spanning multiple business processes in the cash conversion cycle.

Accounts Receivable

Cloud-based Esker Accounts Receivable solutions seamlessly integrate with invoicing applications and allow companies to automate the delivery and archiving of electronic and paper invoices. Esker AR is the first SaaS solution to offer 100% automation of customer invoice delivery worldwide.

Accounts Payable

Cloud-based Esker Accounts Payable solutions make paper-free AP a reality with intelligent capture, touchless processing capabilities and electronic workflow. AP automation helps reduce the time and costs associated with the manual entry and routing of incoming vendor invoices. Esker AP is the first complete SaaS solution fully integrated with SAP applications.

ORDER-TO-CASH — PROCURE-TO-PAY

SALES ORDER PROCESSING — Customer Order — Purchase Order — E-PURCHASING

Your Customers — Your Company — Your Vendors

Payment — Payment

ACCOUNTS RECEIVABLE — Customer Invoice — Vendor Invoice — ACCOUNTS PAYABLE

Sales Order Processing

Cloud-based Esker Sales Order Processing solutions automate every phase of sales order processing — from the reception of a customer document to the creation of a corresponding sales order in SAP applications or other ERP systems. Esker SOP makes every order electronic and instantly accessible.

Document Delivery

Send business documents directly from desktop or enterprise applications via cloud fax and mail services or fax server solutions.
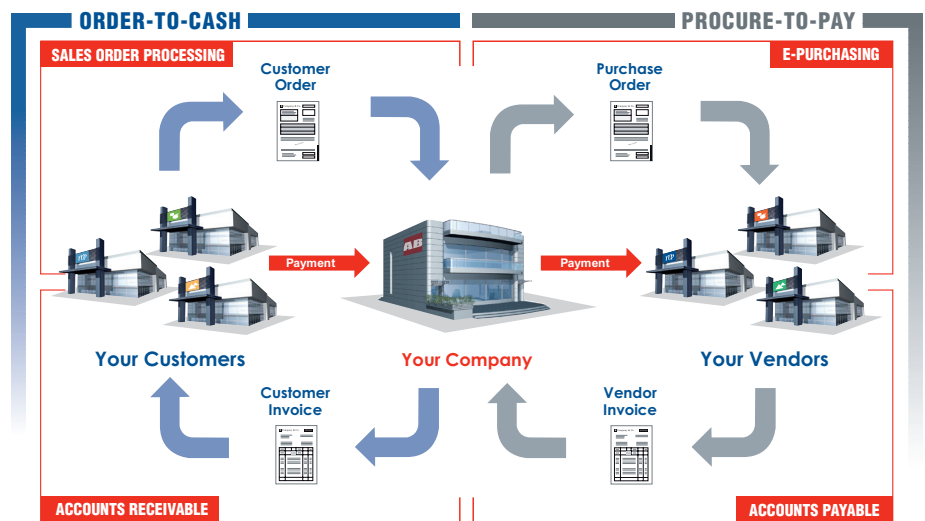

FlyDoc is an easy-to-use, secure and reliable cloud fax and mail solution for single or large document volumes. Mail is sent directly from any desktop or business application, with no hardware or software investment required. 100% on-demand, FlyDoc benefits from 24/7 access to a worldwide network of production facilities and a pay-as-you-go billing model.

Mail Services is an on-demand solution that processes millions of pieces of mail each month for organizations around the world. Mail is securely submitted to Esker production facilities, where documents are processed and put into the postal stream in less than 24 hours. Pay-as-you-go billing offers cost predictability and control.

Fax Services deliver the flexibility, performance and reliability businesses need — with no hardware or software investment. Companies benefit from cloud-based fax integrated with their business applications (SAP or other ERP), real-time fax status notification and 24x7x365 fax service availability.

Esker Fax Servers integrate fax with enterprise applications and messaging platforms, receive and send any fax or document, leverage information systems, and find the most efficient fax routing paths. Products include Esker Fax for Exchange, Notes, SAP and ERP, and Esker VSI-FAX for Unix/Linux.

Two Dedicated Platforms to Address Customer Needs — On-demand and On-premise

Esker on Demand cloud services offer access to Esker infrastructure for secure, efficient and traceable document processing and delivery. Pay-as-you-go Esker on Demand services revolutionize document processes and business communications.

Esker DeliveryWare provides an end-to-end solution for receiving and sending business-critical documents, encompassing inbound and outbound automation. Esker DeliveryWare automates the exchange of business documents with customers and suppliers regardless of source, format, or destination.

Esker Professional Services

Using a proven 4-step methodology including discovery, business process analysis, implementation and production, Esker offers technical expertise and practical experience to move projects smoothly from concept to completion and quickly deliver the benefits of Esker solutions.

Esker Worldwide Presence

Esker is headquartered in Lyon, France with offices in North America, Europe, Australia and Asia — and is assisted by a broad network of partners, distributors and resellers in more than 80 countries.
