## Equipment

### The factory-engineered range of Porsche vehicle accessories

At Porsche, we believe our cars offer the ultimate expression of personal freedom and individuality. In building his first roadster, in fact, Professor Porsche ignored the conventions of his day and handcrafted a sports car like no other. Porsche Equipment allows you to follow in his footsteps and assert your own individuality; the Equipment range of components offers an almost unlimited scope for personalizing your Porsche. Whether you choose to enhance performance or indulge in the comfort of interior appointments, you can be sure that your requirements will be interpreted with meticulous craftsmanship and attention to detail. Our certified technicians will also ensure that while your Porsche may be modified, its original warranty won't be. Additionally, all Porsche Equipment is warranted for two years, parts and labor. The freedom to enjoy your personal definition of driving perfection has a name. It's Porsche Equipment.
