About Hennessy Porsche North Atlanta

In Atlanta, the Hennessy name has become synonymous with the highest ethical business practices resulting in unparalleled levels of customer satisfaction. Hennessy has been the trusted name for luxury vehicles in metro Atlanta for over 60 years. Here at Hennessy Porsche it is our business to seek the best ways, through a Porsche dedicated staff and a state of the art facility, to continually exceed our client's expectations. It is this commitment to excellence that makes customer service not only our promise to you...it is our mission. We pride ourselves on providing a totally enjoyable research, purchase and ownership process that is every bit as satisfying as the Porsche driving experience itself. We recognize that Porsche owners are some of the greatest automotive enthusiasts and experts in the world who demand the very best...this is what ignites our Passion to

Tequipment

The factory-engineered range of Porsche vehicle accessories

At Porsche, we believe our cars offer the ultimate expression of personal freedom and individuality. In building his first roadster, in fact, Professor Porsche ignored the conventions of his day and handcrafted a sports car like no other. Porsche Tequipment allows you to follow in his footsteps and assert your own individuality: the Tequipment range of components offers an almost unlimited scope for personalizing your Porsche. Whether you choose to enhance performance or indulge in the comfort of interior appointments, you can be sure that your requirements will be interpreted with meticulous craftsmanship and attention to detail. Our certified technicians will also ensure that while your Porsche may be modified, its original warranty won't be. Additionally, all Porsche Tequipment is warranted for two years, parts and labor. The freedom to enjoy your personal definition of driving perfection has a name. It's Porsche Tequipment.

Porsche Communication Management (PCM) with navigation module and CD/DVD autochanger

Part number: 95B 044 900 31

Central information and communication system with: - high-resolution 7-inch color touchscreen - radio with RDS double-tuner frequency diversity - 6-disc CD/DVD autochanger - up to 5,000 MP3 files can be stored and played on the 40 GB internal hard drive - USB connection for various iPod® and iPhone® models, USB memory sticks with MP3 music and players. Includes operation via the PCM, the multi-function sports steering wheel or the optional voice control navigation module with: - hard disk with map data for most European countries - perspective map display and 3D navigation map including City and Terrain models with superimposed satellite map - dynamic route guidance (3D), advanced dynamic route guidance taking into consideration various traffic flow information (TMC Pro) - automatic route tracing and subsequent backtracking navigation as well as navigation in non-digitally mapped areas using a compass and GPS - transfer of online navigation destinations using the optional online services and much more In conjunction with the optional online services

Note: It is not possible to display the navigation function on the TFT display of the instrument cluster. When playing back copy-protected CDs/DVDs, playback problems may arise that have nothing to do with the quality of the audio devices.
