When should my pet wear a muzzle

Training to avoid bites is important, but sometimes muzzles are necessary, particularly while a pet is still in the rehabilitation process. If you have a pet that is likely to bite and you're going to be in a situation that's stressful for the pet, a muzzle might be a good idea. Stressful situations can include a trip to the vet, or places where you'll be around a lot of strange pets and people. Keep in mind that, like all muzzles, they should only be worn for brief periods of time, up to twenty minutes at the most, depending upon temperature and the pet's activity level. Constantly monitor your pet's comfort and remove the muzzle if they are showing any difficulty breathing or signs of overheating.

What kind of muzzle should my pet wear

This depends on the situation. At the vet or when you're working on socialization, a mesh style muzzle will work. Although if your pet is going to be running, playing, or otherwise physically active, then a basket style muzzle is ideal. This allows the pet to pant for cooling as well as to drink water, but still keeps her from being able to bite.

How to measure your pet's snout

Measure the circumference midway between the tip of the nose and eyes, under the chin and over the top of your pet's muzzle. If your pet's snout is the exact same size as the pet muzzle, your pet will not be able to open his mouth to pant, please order the next size up.

★★★★☆ It has a secure and comfortable fit.

She didn't like the muzzle. It's soft and definitely looks comfortable and fit's secure. It's stopping the biting. I would definitely recommend this product to other small/large dog owners. Also very affordable.

Very well made. Good value. We wanted it to keep our puppy from eating bad things on her walks. This def helps but if she uses her tongue she can still get stuff. I'm going to sew mesh on it.

This is the smallest muzzle on all of Amazon and it's a perfect fit for my Yorkie. All the other ones I purchased came up to her eyes.

★★★★☆ Runs small fo my pit bull

Reviewed in the United States on October 7, 2018

Hard to put on because it seems to run on the small side, at least for my pit bull. I ordered a large. I will keep this for my lab though.

★★★★★ **My dog likes it**

My 15 pound maltipoo has sensitive ears, he likes to snap when they get cleaned. He does really well with this muzzle. He has no problem drinking and staying calm, it seems very comfortable on him.
