Cute idea, but the chocolate melts didn't melt very well...

I am no stranger to chocolate molding. Typically, I create my own chocolate melts by using chocolate chips + some sort of butter. While trying to melt the chocolate melts, it just turned into a lumpy mess. I was really disappointed with my experience, because it isn't one I would associate with Wi...

I am no stranger to chocolate molding. Typically, I create my own chocolate melts by using chocolate chips + some sort of butter. While trying to melt the chocolate melts, it just turned into a lumpy mess. I was really disappointed with my experience, because it isn't one I would associate with Wilton. Other than having issues with the lumpy chocolate, the kit is really cute. Would be perfect for kids!

★★★★★ 5 Candy making made easy!!

My 7 year old daughter and I loved using this kit! It made decorating desserts so easy and fun (we did rice krispy treats with designs on them)!

★★★★★ 5 Best activity to share as a family!

The second I received this kit I new exactly when and with whom to use it for the first time: My daughter's Pajama Party at our house with her friends from school. Once I announced to them what we were going to be doing, they were immediate super excited and ready to start! This kit has very clear and easy to follow instructions, and it includes everything we needed ti have an amazing and extra fun night. I loved watching the girls laughing and enjoying their time together, thanks to this product. All of their "exquisite creations" (that's how they call them, lol!) were full of color, creativity and amazingly delicious flavors. It was a beautiful experience that we all want to experience again soon!

★★★★★ 5 Delicious and easy

I love Wilton products, so when I found these easy kits, I had to try them. The ingredients were fresh, and come with everything you need. This particular one taught me how to color chocolate, and make little words and designs for the top of cupcakes too. I ran right out and bought a Tasty cookie kit.

★★★★★ 5 So much fun!

This kit was such a fun activity for the kids and I to do. We made cupcakes and brownies and decorated them using the kit. We made pretty designs with the frosting tips and also made fun chocolate decorations to top them with. This kit was so simple to use and fun. My kids who are young had an easy time using it too so it is made for the whole family in mind.

★★★★★ (5) **Fun candy art for kids and adults**

My girls and I had so much fun making handmade candy bars, candy hearts to decorate cupcakes we made and even chocolate rainbow swirl bark this week. The directions were super easy to follow, and I loved how the kit included everything you needed to make a few different candy art to eat and decorate cakes and cupcakes with. I will definitely be buying this kit again and looking for other like this. My two girls had a blast working with the melted white chocolate wafers fo make fun and tasty edible art. I highly recommend this kit for anyone who would like to try their hand at candy art.

★★★★☆ (3) **Fun concept!**

It was fun to try to make cupcakes and then use these candies as a topper however, I couldn't go past the first step! Making the candy is hard because once it got hard trying to melt it, there was no going back!

★★★★★ (5) **Entertaining and Tasty!!**

This is a great activity for a birthday party or a kids party to keep kids entertained and have a treat at the end! The kids really enjoyed making their own creations and it was fun to see them each make their unique treats. All the materials you need are included in this kit and it can be used again by just replenishing the chocolate and a few other things! Great kit!
