The Google Apps Marketplace offers products and services designed for Google users, including installable apps that integrate directly with Google Apps. Installable apps are easy to use because they include single sign-on, Google's universal navigation, and some even include features that integrate with your domain's data.

Featured Apps

Aviary Design Suite (Free)
Free design tools and templates to create, modify and share images, logos, presentations, audio tracks, podcasts & more. Teams can collaborate on multimedia projects. Works directly in Google Docs.

• Try popular & notable apps

Insightly: Free simple CRM and Project Management
Insightly is the most popular CRM and Project Management package for Google Apps. Track leads, proposals, opportunities, projects and manage files, all through an easy to use interface.

Bill.com - Pay Bills. Get Paid. Faster.
Bill.com helps businesses manage the day-to-day process of paying bills and getting paid. Go paperless, eliminate data entry, enforce controls, and sync with your bank and accounting system.

Brightpearl - Online Accounting, Inventory, CRM all in one place
Brightpearl makes it easy for you to manage customers, sales, inventory, suppliers, websites and finances all in a single system.

RapidTASK: Powerful Todo Lists You Can Share FREE
Make project management as easy as email. Add unlimited users, upload files, and sync with Google Contacts, Calendar and Mail. Create powerful todo lists and share them with others – all for free!

Applane CRM (2 users free)
Applane CRM is an enterprise CRM that supports complete sales cycle and customer relationship. It has very efficient user interface with context menu and many advanced features. It is hosted on GAE.

• Success stories from customers like you
