OUR STORY

EXP Pharmaceutical Services Corp. is one of the most prominent members of the pharmaceutical reverse distribution industry specializing in professional waste disposal and customized reporting services.

EXP serves hospital, government, independent retail, chain-store, clinic, long-term care, veterinarian and dozens of other pharmacy segment manufacturers.

EXP serves more hospital pharmacies and more long-term-care pharmacies than all other competitors combined.

EXP is an original Charter and Founding member of the Returns Industry Association (RIA) and as such has worked to create and publish our industry's standards for pharmaceutical reverse distribution services. A one-time [Inc. 500](#) company, EXP is a recipient of numerous federal and state-issued [licenses](#) and certifications. EXP is also one of the very few pharmaceutical reverse distributors licensed as a DEA Schedule I registrant.

EXP is the only pharmaceutical reverse distributor to have created a still-growing nationwide network of over 60 service and management [office locations](#) based in most states and serving on-site all fifty states, U.S. properties and international locations around the world.

EXP has created a variety of pharmacy service programs designed for every segment of the Healthcare industry. Our service programs include both on-site and off-site options, all of which were designed for the legal and efficient removal of expired and unwanted products.
