Hospital Pharmacy Solutions

Looking to improve financial, operational and clinical performance?

Meet BoPSM. The Business of Pharmacy.

Empowered with the right evidence-based solutions, your pharmacy is a wealth of opportunity waiting to be uncovered. Our Business of PharmacySM (BoP) approach helps healthcare organizations' pharmacies run like successful businesses, capitalizing on business tools to unlock the value of the pharmacy and achieve quantifiable results for the entire hospital.

By adopting McKesson's BoP approach, you can raise the bar on your financial, operational, and clinical performance—not just in the pharmacy, but throughout the hospital. Learn more about McKesson's evidence-based business of pharmacy approach at McKessonBOP.com.

Solutions for Hospital Pharmacy

Optimize financial performance

Reduce drug spend and open doors to new revenue. By leveraging your assets more efficiently, you can minimize losses, increase cash flow and realize significant savings. For example, Evergreen Hospital saved **\$1.9M** via pharmacist patient interventions.

Financial Solutions

- Pharmaceutical Distribution
- Pharmacy Optimization® Consulting
