Sprinkler System Design Service

Homeowner/Residential Systems Only

Providing you with professional advice and planning assistance direct from the industry's leading manufacturer, this comprehensive sprinkler design service covers all the bases with a complete set of sprinkler system plans to help you install your Rain Bird irrigation system with confidence. Your computer drawn design package includes an itemized shopping list of everything you need to complete the project. And if you have a question before, during or after installation, call our Expert Advice hotline at 1-800-RAINBIRD.

Note: The Rain Bird Design Service is available in the US and Canada only. Additional fees may apply in certain states/provinces.

Design Service for
Canadian Residents

Design Service for
Texas Residents

Compliant with Texas and Local codes

What You Provide To Rain Bird

Using this Design Service first involves gathering some important information about your water system and yard. Take a few simple measurements and record the information on the [design request worksheet](#). You will be asked to provide: Water available for your irrigation system (water pressure, meter size, service line size) and a sketch and accurate dimensions of your property (using graph paper included in the design request form).

What You Get Back

You will receive a detailed, computer-drawn plan specifying the location of irrigation system components such as valves, lines and sprinklers.

Spray patterns for each sprinkler head are also identified for each lawn area. In addition, the design package provides you with a shopping list of supplies needed to complete your installation.

Enhanced services include additional items listed below.

Option 1: Email Service

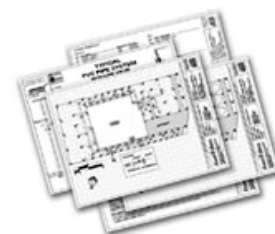

Your system design will be delivered to you via email in Adobe® Acrobat (PDF) format within 10 business days.

Testimonials

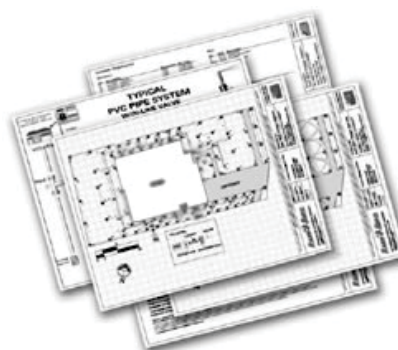

"Thank you so much. This is the second time we've asked Rain Bird to help us out and we couldn't be more pleased.

This is exactly what we were looking for."
Charles & Amy - California

"I'm a 66-year old man and I have never put in a sprinkler system before. The information you sent with the design made it very easy to install. The shopping list saved me a lot of time and guess work."

Pete - Oregon
