**Declaration**

The signatory believes that: if the applicant is filing the application under 15 U.S.C. § 1051(a), the applicant is the owner of the trademark/service mark sought to be registered; the applicant is using the mark in commerce on or in connection with the goods/services in the application; the specimen(s) shows the mark as used on or in connection with the goods/services in the application; and/or if the applicant filed an application under 15 U.S.C. § 1051(b), § 1126(d), and/or § 1126(e), the applicant is entitled to use the mark in commerce; the applicant has a bona fide intention, and is entitled, to use the mark in commerce on or in connection with the goods/services in the application. The signatory being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements and the like may jeopardize the validity of the application or any registration resulting therefrom, declares that all statements made of his/her own knowledge are true and all statements made on information and belief are believed to be true.

**Signature Section:**

Signature:   
 Signatory's Name: RAMI LEE  
 Signatory's Position: Vice President  
 Signatory's Phone Number: 82-10-5329-8006

Date Signed: 23 / 2 / 2016

**NOTE TO APPLICANT:** When filed as part of the electronic form (i.e., scanned and attached as an image file), the signature page **must** include both the signature information **and** the boilerplate declaration language. Do **not** include the entire application, but do ensure that the boilerplate declaration language actually appears; *a signature by itself will not be acceptable*. If, due to browser limitations, the boilerplate declaration language appears on a previous page when printed, you must "merge" the declaration and signature block onto a single page prior to signing, so that the *one complete page* can be scanned to create an acceptable image file. It is recommended that you copy-and-paste the entire text form into another document, manipulate the spacing there to move the declaration and signature section to a separate page, and then print this new version of the text form to send to the signatory.
