

A New Revolution in CIPP Lining

Coming in 2018

Imagine....

1. A CIPP lateral liner where 50 feet cures in 5 minutes...
2. A spot repair that cures in 3 minutes.
3. A CIPP liner delivered pre-impregnated, no refrigeration, no wet out table or other chemicals needed.
4. Pre-impregnated liners that can be stored at room temperature for 6 months.
5. Curing devices that utilize the newest UV LED technology.
6. Technology powered by a compact rechargeable battery
