NECC 2007 - June, 2007

"... a worthy successor to the original."

— Roger Wagner

Roger Wagner's HyperStudio® 5

Back and better than ever, this new edition of HyperStudio uses the latest technology to provide students with a completely up-to-date media-rich creative tool for presenting ideas, stories and adventures. Developed by HyperStudio creator Roger Wager and Software Mackiev, the new HyperStudio 5 is both true to the original design and updated for modern times with podcasting, webcams and more.

More than 200 new features including:

- **Podcasting Support** -- Export presentations to iPod® video format
- **Webcam Workshop** -- 2,000 teacher-approved safe webcam locations
- **"Live" Object Mode** -- Even individual brush strokes can be edited
- **Import from iTunes®** -- Bring in music from iTunes playlists
- **Scrapbook** -- Keep frequently used objects in one convenient place
- **More Import Sources** -- Keynote®, Powerpoint®, old HyperStudio® stacks
- **Sticky Notes** -- Can be placed on cards to provide instructions and tips
- **Card Browser** -- Easily navigate between cards from the main screen
- **Additional Text Options** -- Including kerning, outlines, and shadows
- **Advanced Graphic Effects** -- Zoom blur, crystallize, bloom, glass, etc.
- **Tool Settings Drawer** -- Contains appropriate settings for each tool
- **Customizable Toolbar** -- Set to display the most frequently used tools
- **More Brush Styles** -- Dozens of new brushes including 3D paint styles
