Making better care possible

We're in an era of unprecedented complexity in healthcare. Patient care is not where it should be. While many of the organizations delivering the care need to get much healthier, too.

This is why our vision is to improve care in every setting — one product, one partner, one patient at a time. And we're making this happen every day by touching virtually every aspect of healthcare.

We partner with biopharma companies, care providers, pharmacies, manufacturers, governments and others to deliver the right medicines, medical products and healthcare services to the patients who need them, when they need them — safely and cost-effectively.

United by our **ICARE values**, our 78,000 employees work together every day to make better care possible for patients around the globe.

Our vision

To improve care in every setting — one product, one partner, one patient at a time.

The difference we make in one minute

McKesson is the central nervous system of health care. At any given moment, in any given minute, we simultaneously execute thousands of critical operations that improve the businesses of our customers and the lives of their patients.

This is the difference we make in one minute. This is the difference we make every minute.

Who We Are

We believe higher-quality care comes when health organizations across settings are truly healthy. We provide the products, technology and resources they need to operate more effectively, lower costs and improve patient health.

[Our Values](#)

[Key Facts](#)

[Partnerships](#)

Our values are a foundation for our leadership.

How we work is just as important as the work we do. We lead by having the courage to make difficult decisions, take risks, and try new ideas. Our people care enough to do whatever it takes to help our customers succeed. Our leaders chart a course toward a stronger, more sustainable future for the health care industry.
