Study smarter

More than 90% of students who learn with Quizlet report improved grades. See how Quizlet's simple tools can help you learn anything, from beginning algebra, to AP US History, to college level econometrics – and beyond.

I'M A STUDENT

Share knowledge

Keep students engaged and motivated with Quizlet. Create your own classroom sets, collaborate with other teachers, play [Quizlet Live](#), and give your students materials to help them learn in a more fun and more efficient way.

I'M A TEACHER

**Our mission is to help
students practice and
master whatever
they're learning.**

We do this by making it simple for students and teachers to create and share online learning materials. Quizlet is proud to be the most popular online educational service in the United States, used by more than 50 million students and teachers each month.

Starting with a simple online learning tool, Quizlet today offers tools for students to make flashcards, practice spelling, play learning games, test their knowledge, collaborate with other students, and more.

QUIZLET'S MISSION

Get to know Quizlet Learn!

Available on the Quizlet website, iOS and Android.

Know what you need to know

You have a big quiz or test coming up. Do you know the best way to study?

Now you do – meet the new Quizlet Learn. Create a study set of material you need to practice and master, tell us when you need to

with Quizlet Learn

learn it by, and we'll kick-start your studying with an adaptive study plan and notifications that remind you when it's time to focus.

Why use Quizlet Learn?

- 1 It takes the guesswork out of studying by creating a plan and then guiding you through what and when practice.
- 2 See how you're improving, get gentle reminders to and make progress with short, actionable study ses
- 3 Quizlet Learn is powered by Quizlet's new Learning Assistant Platform, which uses data from millions of anonymous study sessions and then combines it with proven ideas from cognitive science.

Powered by the Learning Assistant Platform

Quizlet Learn is powered by the Learning Assistant Platform, which uses machine learning to process data from millions of anonymous study sessions, and then combines that data with proven techniques from cognitive science. By understanding how people really learn, this powerful platform drives studying that's more effective and more efficient, by only showing students material they need to learn — and making it fun at the same time.
