

Peace of mind with one global supplier

Buying new communications equipment, installation and maintenance can result in multiple suppliers and contracts.

Did you know that we supply and support equipment from all the leading vendors? As a global service provider, we go one step further: we can offer a single contract to cover equipment, installation and maintenance.

Orange has highly skilled people to support the design, delivery and installation of your important equipment. We operate in 196 countries around the world to give you peace of mind of choosing one supplier.

Orange Business Services resale and maintenance covers a complete portfolio from manufacturers including:
