

# NGINX Open Source

certificates dynamically and additional newly released features.

## Achieve Full API Lifecycle Management Using NGINX Controller

Karthik Krishnaswamy • Watch on demand

Attend this webinar and learn how to manage the entire lifecycle of your APIs using NGINX Controller. This includes defining, publishing, securing, routing, monitoring, troubleshooting, and analyzing usage of your APIs to assess their health, Optimize performance

## NGINX + F5: Ask Us Anything!

Sidney Rabsatt, Rob Whiteley • Watch on demand

F5 is acquiring NGINX, forming a powerful combination that will 'bridge the divide' between NetOps & DevOps and between monolithic and cloud-native environments. Join this webinar to ask us anything about this acquisition, and our vision for the future.

## Scale Your Application to New Heights with NGINX and AWS

CLOUD • Damian Curry, Juan Villa • Watch on demand

Join this webinar to learn about using NGINX to load balance applications hosted on AWS. We will provide an overview of NGINX and explore in detail how NGINX integrates with AWS services.
