

# Installation

## Prerequisites

### ABOUT

### INSTALLATION

Prerequisites

Docker Images

Initial Configuration

Official Packages

Amazon Linux

CentOS

Debian

Fedora

RHEL

Ubuntu

Node.js at npm

Startup and Shutdown

Community Repositories

Alpine Linux

Arch Linux

CentOS/RHEL SCLs

FreeBSD

Gentoo

NGINX Unit is verified to compile and run on various Unix-like operating systems, including:

- FreeBSD 10 or later
- Linux 2.6 or later
- macOS 10.6 or later
- Solaris 11

Most modern instruction set architectures are supported, such as:

- ARM
- IA-32
- PowerPC
- MIPS
- S390X
- x86-64

App languages and platforms that Unit can run (including multiple versions of the same language):

- Go 1.6 or later
- Java 8 or later
- Node.js 8.11 or later
- PHP 5, 7
- Perl 5.12 or later
- Python 2.6, 2.7, 3
- Ruby 2.0 or later
