MORE

### CORPORATE WATER MANAGEMENT

Connate Water specializes in Corporate Water Management which is centered around achieving client focused goals. Our Corporate Water Management services include identification of alternative water sources, water usage reporting/tracking and facilitating stakeholder engagement (ex. water well complaints).

MORE

### AQUIFER & GIS MAPPING SERVICES

Stay ahead of the competition with Connate Water's 3D hydrogeology maps! Connate Water has significant Geographical Information System (GIS) expertise for various industries including oil & gas, cannabis, municipal developments

and agriculture.

MORE

## HYDROGEOLOGICAL REPORTING & LICENSING

In Alberta, any industrial groundwater diversion of non-saline water (<4,000 mg/L TDS) requires a Temporary Diversion Licence (TDL) or multi-year Term Licence. A professionally stamped report completed by a registered hydrogeologist (P.Geo.) is required to accompany these applications. Find out more about Connate Water's efficient reporting process to streamline your regulatory approval.
