For Church Planting

AFRICA

New and Developing Projects

Doors are opening in Africa. The continent of Africa has:

57 Countries

1.1 Billion People

3,053 Ethno-linguistic People Groups

2,065 Unreached People Groups

2,138 languages (per Ethnologue)

**1,111 Languages-about 41 million people
with NO BIBLE (as far as is known)**

Togo, West Africa -Ewe Translation

The Ewe people currently have a Bible that is inadequate and inaccurate. A new translation based on the KJV and the Received Greek Text is needed.

Our 2016 translation conference resulted in the beginning of a new Ewe translation project. The project is led by Pastor GBOLOU Mawouli

Madagascar - The Malagasy language needs a true, faithful, and accurate translation. We have been invited to begin a translation project there.

South Africa -Zulu

Our associate, Jesse McCoy, is on his way to South Africa. He is a graduate of the Baptist Bible Translator's Institute in Bowie, Texas. He plans to start a Zulu Bible translation Project and to establish a translation training center. He will also help supervise translation efforts elsewhere in Africa

Translation Training Centers

It is our plan to establish translation centers in various parts of the world. These centers will train national Christians to translate the Bible, to train them in linguistics when necessary, to start translation projects, and to provide helps to translators.
