FACE A FANATICAL THREAT

The Calypso Twins, Troy and Tyreen, are ruthless new media cult leaders who have convinced the bandit clans of the Borderlands that they are their Gods and Saviors. They consider the power of the Vaults to be their birthright and are leading their weaponized worshippers, The Children of the Vault, on a crusade to claim it—and only you have the arsenal and allies to take them down.

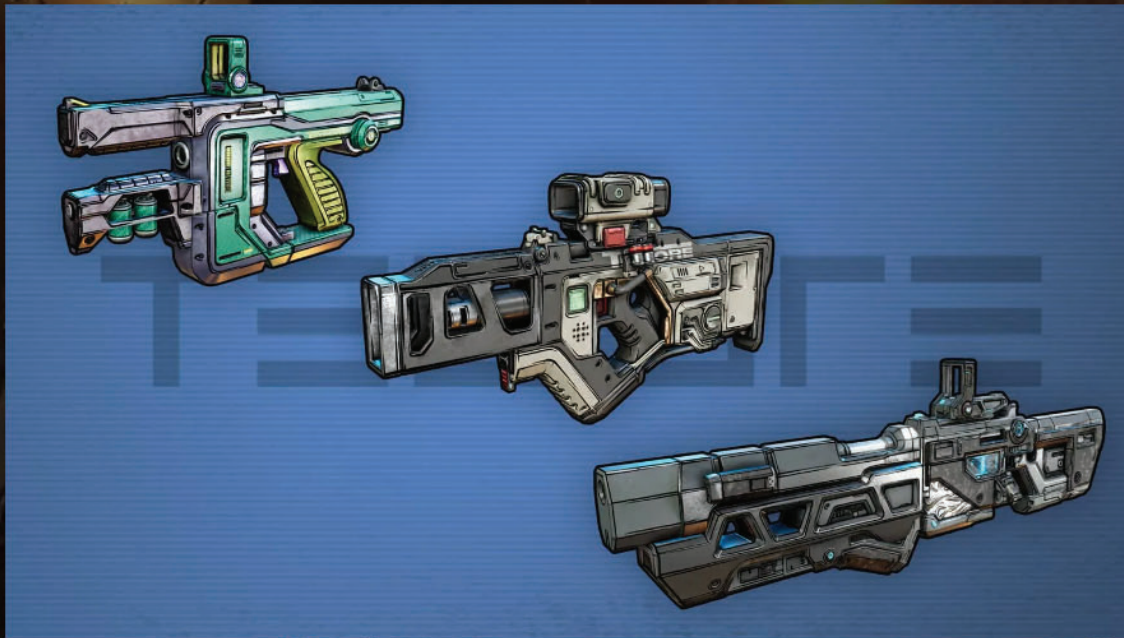

EXPERIENCE CO-OP MAYHEM

Team up with other Vault Hunters online. Your whole crew will be able to deal meaningful damage—regardless of your respective character levels—through our handy Level Syncing system. You can even opt to play with loot instancing enabled so that you each get your own level-appropriate weapon drops.

LOCK, LOAD, LOOOUUT!

There are over one billion guns in Borderlands 3, and every fight is an opportunity to add to your arsenal. Some guns launch exploding sawblades, some never need to be reloaded, others grow legs and pursue enemies on foot when you throw them. Having trouble choosing? Rarity ratings and item scores make it easy to compare the power of your pickups at a glance, but you can also tell a lot about a weapon and its functionality based on its manufacturer. Check out the manufacturer details below:

Toss your gun like a grenade to reload, then watch it pursue a nearby enemy as a fully loaded version digistructs in your hand.
