HARD CORE PLUS™ PROROCK XD60®/XD60 AXLE SET

HARD CORE PLUS™ PROROCK XD60®/XD60 AXLE-SET FOR JEEP GLADIATOR JT

The Hard Core Plus ProRock XD60®/XD60 Axle Set™ is for Jeep Gladiator JT owners who want more than just "one-ton" axles. This axle set delivers Dynatrac ProRock XD60® technology front and rear. Unbeatable durability with more axle rigidity to better hold proper gear mesh under extreme loads. The exclusive Dynatrac 1550LT® wheel ends provide tighter turning, less locker bind when turning, reduced steering effort and less wear-and-tear on steering components. And both axles offer best-in-class ground clearance.

DYNATRAC AXLE SETS™ FOR JEEP WRANGLER JL

Dynatrac Axle Sets™ are now available for the all-new Jeep Wrangler JL! Available in both Elite™ and Hard Core Plus™ packages, Dynatrac Axle Sets™ for the JL provide the strength, durability and unmatched ground clearance in easy-to-install packages to go far beyond typical Dana 60 crate axles.

Dynatrac Axle Sets™ pair completely assembled and ready to run front and rear Dynatrac axles designed for specific types of Jeep Wrangler JL builds. It's now easier than ever to determine what Dynatrac axles will be ideal for your type of build.

All of these new Dynatrac Axle Sets™ include the U.S.-patented ProRock® design, providing you with the absolute best ground clearance. And these axles are 100% designed, manufactured and assembled in the U.S. using U.S.-sourced steel. That's something that you as a customer and us as a manufacturer can be proud of!
