# DeckStar TESTIMONIALS

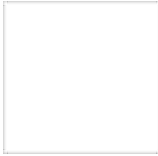

Before I used Regal railing my team would spend days installing a railing on our decks. With Regal ideas, it literally only takes a few hours. The lock- in picket system eliminates the need for screws and the welded-on post brackets make the system super strong and super easy. We especially love their LED's!

**Kevin, Neighbourhood Fence & Deck Inc.**

This is my first year using Regal ideas railing systems and it's the only railing system I will recommend and use on my projects. It is easy to install and easy to maintain. Install the posts and rails and lock in the pickets or slide in the glass, it really is as easy as 1-2-3!

**Brian, Builtmore Canada**

I used Regal railings for the first time last month and they are amazing! Easiest install I have ever done and one of the strongest aluminum systems I have ever used. Great product and will definitely be recommending this over any other aluminum railing system.

**Shane, Baxter Construction**
