Connecting the Payer and Life Sciences Communities. Advancing the Exchange of Information.

FormularyDecisions is a secure online platform facilitating the bi-directional exchange of information between life sciences companies and healthcare decision makers (HCDMs) for medical policy and formulary development. This closed, HCDM-only platform supports over **2,100 registered, active, formulary decision makers** from managed care organizations, pharmacy benefit managers, health systems, hospitals and government payers with clinical and economic information on **>2,500 pre- and post-approval products**. It streamlines the formulary decision-making process by providing exclusive, centralized access to:

Product information from manufacturers

AMCP eDossiers
including pre-approval information
