## Product description

Number of Items:6

Chair Bands help students stay focused, comfortable, and relaxed while working. It has been shown that physical activity helps to increase focus and attention while sitting, especially for kids and teens with ADHD. Chair Bands provide teachers and parents with a quiet way to let their kids bounce their feet, stretch their legs, or simply rest their feet! This is perfect for the students that just need to wiggle while they work. Chair Bands were designed to enable energetic students the freedom to move their feet while sitting quietly in their seats. Increased levels of neurotransmitters from physical movement helps maintain focus and attention. Chair Bands can be a tool used to help every student stay focused longer. Chair Bands are easy to setup and can be installed in seconds. The band stretches around the front two chair legs to create a safe place for feet to fidget, bounce, kick, and rest. To uninstall, just stretch the band to remove from the chair legs one at a time. Chair Bands are made for chair legs that are at least 10" apart. Chair Bands are backed by a 100% money-back guarantee. Your satisfaction is the most important to us. If you are not 100% satisfied with your Chair Bands let us know and we will offer a free replacement or refund.

#### Sturdy and effective

Reviewed in the United States on January 21, 2020

Number of Items: 4 **Verified Purchase**

I purchased a few sets for my classroom with specific students in mind, but almost every student wants one now. The bands are effective at channeling excess energy of my 6th graders, with minimal distraction. Occasionally they do catch and make noise when they bounce back, but typically they are quiet. They are strong. These sets were purchased through Peachey and match the item description and the high quality of the reviews. 100% what I was looking for.

\*HOWEVER, I want to note that I purchased another two sets ("buy it again") that were somehow fulfilled through a different seller "Lindsey Edwards Y" which was a 1-star experience. The bands they sent were a different color and about 1/4 of the thickness of the first set, so flimsy that I will not even bother to put them on the desks. Not sure how "buy it again" can get mixed up but I will be returning the second shipment.

#### Reordered after 2 years of use!

I love this bands! I bought them for a flexible seating option my first grade class two years ago. At the end of last year a few broke, but they were looking pretty filthy! They are well price enough to reorder without the guilt!

Bought these because they're approved for use at my son's elementary school. He is in 1st grade and last year had trouble sitting still, sometimes getting up from his chair and disrupting his classmates. We hope this will allow him some movement while sitting during class and prevent that. They seem sturdy and fit on his chair legs perfectly.

I am using the bands in my third grade classroom. They do exactly what they are meant for. The students love them, a little too much. The kids have figured out the bands can make noise, a lot of noise. Sometimes my classroom sounds like a rain storm. That's the only downside.

So far I love these! I bought 24 total for my kindergarten class and they fit so perfectly on their little chairs versus others parents have gotten for our class. It's only been a week and they seem sturdy so far so only time will tell how long durable they are. I'll update later on this.

The students LOVED these bands. They loved them a little too hard and have broken two in a month. Solid fidget but not for the student with serious behavior problems.
