Orthopedic Services

For over 65 years, the physicians of Peachtree Orthopedics have provided the best orthopedic care in Atlanta. No matter your age or orthopedic issue, our doctors will get you back to doing the things you love. Each of our 34 physicians are fellowship trained, going beyond their general orthopedic training to specialize in a specific part of the body including ankle and foot, elbow, hand and wrist, hip, knee, neck and back, and shoulder. Our specialists treat problems of the musculoskeletal system, including bones, joints, muscles, ligaments, and tendons, that may have been caused by sport, daily living activities, or work. Our surgeons are also experts in sports medicine, total joint replacement, trauma, and regenerative medicine.

You'll be treated by orthopedic specialists who are experts in your area of need, leading to higher quality care, less pain, a shorter recovery and a better outcome. Throughout every phase of your life, you can depend on us to provide you with the highest standards of orthopedic excellence along with a commitment to personalized care.

You can be confident knowing that your doctors are leaders in their field, providing cutting-edge technology in state-of-the-art facilities. We are proud to offer you eight convenient locations, as well as eight physical rehabilitation locations, two surgical centers and two MRI facilities.

To provide each patient with the best possible experience, we utilize a team approach for patient care and questions. A patient team includes a physician and physician extenders, which may include medical assistants, nurse practitioners, and athletic trainers. Together, these teams make sure that every patient receives top-

quality, timely, and accessible care. Use of the PO patient portal is the safest and most efficient way to get a message to your doctor or your care team.

Click below to find a doctor with the specialty you need. You can then call us at (404) 355-0743 or book an appointment online for the physician of your choice.
