Summit Spine & Joint Centers uses state-of-the-art minimally-invasive techniques to restore function and to improve your quality of life. Your treatment is provided by physicians that have received extensive post-graduate and fellowship training in fluoroscopically guided spine interventions. Our team's goal is to provide each patient with comprehensive and high-quality care using superior treatments. We provide an array of non-surgical procedures to facilitate the reduction and recurrence of your back, neck and joint pain. Summit Spine & Joint Centers offers a full range of treatments to help with your chronic and acute pain.
