## Overview

Resolve Physician Agency is an answer to a few key questions—How do physicians find the job they are actually looking for, get better representation at the negotiation table, and a better deal in their agreements? Resolve puts the power back into the hands of the physician by providing detailed knowledge of the marketplace for physicians on a national scale and health care employment contract expertise.

If you are a physician who is looking for a new opportunity, Resolve will help you find exactly what you're looking for rather than trying to sell you on a limited selection of opportunities like a recruiting firm.

A Resolve agent works for you, the physician, and not the employer. Resolve consults with its physician clients in depth and detail to learn who they are and exactly what they want out of their employment agreements and opportunities and puts a plan of action in motion to get it for you.
