

Sanitizing Services for All Situations.

Commercial Spraying

Offices, schools, prisons, nursing homes, churches, day care centers, gyms, and other commercial settings are highly susceptible to germs and bacteria which cause sick employees and more expensive situations, regardless the time of the year.

Our product, Aseptic Plus+, effectively kills and eliminates staph, E. coli, H1N1, HEP A, B and C, listeria, salmonella and other germs, bacteria & viruses. Taking the necessary precautions for your business can save you money in the long-run.

Residential Spraying

Providing a clean and safe atmosphere for you and your family, we eliminate any existing types of bacteria, germs or virus* to reduce the chances of your household members falling sick.

We use technologically advanced, professional electrostatic sprayers to deliver a safe, effective shield of a hospital-grade disinfectant over all surfaces.

HVAC Air Duct Spraying

With our Aseptic Plus+ solution, we can effectively control odors and allergens by stalling the growth of bacteria, fungi and other organisms in HVAC system components and air ducts in residential homes and commercial, institutional and industrial buildings.

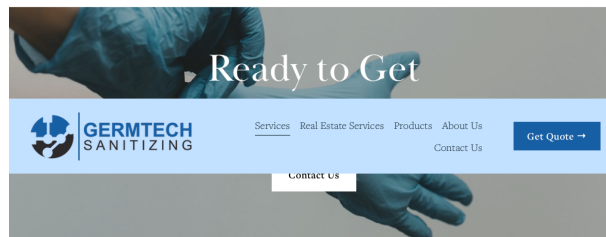

Our fragrance free solution also eliminates most odors and is a safe and effective bacteriostat, fungistat (mold and mildew), mildewstat and deodorizer that will not stain materials or fabrics and damage HVAC system components.

Deodorizing

Our **deodorizing service** kill viruses, mold, disinfects, deodorizes, provides mold remediation, disinfection, and odor removal, while improving your Indoor Air Quality (IAQ). Our fogging phase kills 99.999% mold, virus, & bacteria with the benefit of odor removal. Our equipment ensures that every susceptible surface receives our treatment like static cling!

Other benefits of our services
