Maximize the value and interest of your signed collectible with our Letter of Authenticity (LOA). Highly sought after by collectors, dealers and hobbyists alike, our LOA is given to any item that passes our stringent authentication process. It is accepted by all

The JSA Letter of Authenticity (LOA) features an inset image of the item and has been signed by an autograph expert in the presence of a licensed notary public. The LOA also features additional customized data such as quantity of signatures, manufacturer, writing implement, as well as type and/or model of the item. A certification label is placed on the item or letter (customer preference) with the corresponding number appearing on the LOA. Any item with a JSA perceived value of over \$200 being submitted through our authentication process is required to receive our Letter of Authenticity.

## BASIC CERTIFICATION (COA)

Our basic certification / certificate of authenticity is popular among dealers and collectors. Basic certification employs the same valued authentication process as our LOA but is used to verify autographed items of lower value (JSA discretionary value of under \$200.00).

Basic certification is not witnessed by a notary and is not accompanied with an image or full, customized description like our Letter of Authenticity. Your certificate of authenticity includes a JSA registration card with a unique certification number that

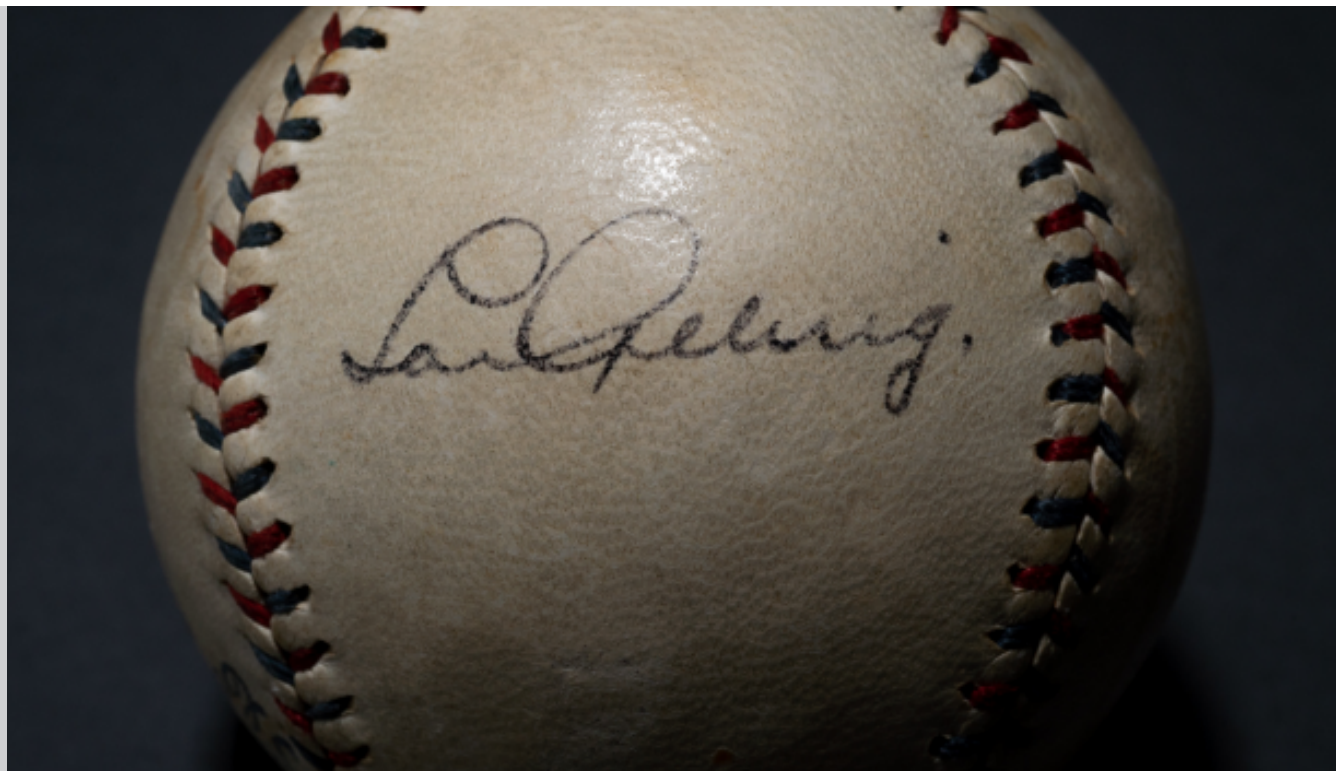

Dealers or collectors with large inventories/collections should inquire about our discounted rate and/or our house calls program.

## WITNESSED PROTECTION PROGRAM (WPP)

Promoters and dealers love our Witnessed Protection Program because of its high level of signature verification. One of our JSA representatives watches the athlete/celebrity signing in order to witness and validate the signature at shows, conventions and signing events. This eyewitness program removes any doubt that the items you buy and sell are authentic.

Items that have our WPP certification but have lost the registration card will either be required to upgrade to an LOA to keep the witnessed certification status or override the witnessed label with our basic certification.

## GRADING

Take the next step in enhancing the value of your beautifully bold signature with our Graded Letter of Authenticity. All signatures that pass our authenticity standards are eligible for this LOA upgrade, which further examines the autograph's condition.

Determining factors include, but are not limited to: contrast, strength of signature, autograph placement, streaking-smudging, creasing, stains, tears in item. 1-2 signatures accepted. Any item with 3 or more autographs will not be accepted for grading.

Combination of grades of the two signatures will result in the final grade on multi-signed items. Only signed baseballs can receive an overall score that grades both the autograph and item. This additional score is available at no additional cost when upgrading.

## PERSONAL STATEMENT OF FINAL WISHES

As collections grow and autographed memorabilia become part of personal estates, our authenticators have taken on the role as counselors to heirs regarding inherited collections. JSA offers consulting services regarding the circumstances and options surrounding a collection of any size. "And When I Die," a simple statement of intent, can be prominently placed in the forefront of your collection, instructing heirs that James Spence Authentication will counsel them on fair market value, authenticity, and measures to properly distribute the property. Since we are not in the business to buy and sell, we perform this service as a neutral third party with no conflict of interest.
