Description

UNIQUE E® Mixed Tocopherols Concentrate (OPTIMUM E COMPLEX)

Mixed Tocopherols – Available in two sizes — 120-softgel bottle and an "easy travel size" 30-softgel bottle. Kosher friendly.

Each 700mg beef softgel mixed tocopherols contains the highest concentration of the complete Vitamin E tocopherol complex — HIGH-Gamma, HIGH-Alpha, with Beta and Delta isomers — completely void of fillers or additives that can turn rancid. This all-natural, PURE Vitamin E concentrate consists of the natural form of Vitamin E as obtained through the diet and as used by the body.

Vitamin E has been found to provide many valuable Health Benefits:

Cardiovascular Health

- Supports overall cardiovascular and circulatory health*
- Promotes healthy coronary blood flow*
- Provides antioxidant support*
- Supports the body's ability to appropriately process and utilize important lipids*
- Helps in the maintenance of cholesterol levels that are already within the normal range.*
- Helps support healthy red blood cell flow*

Aging

- Supports healthy focus and memory retention*
- Helps to promote healthy brain function*
- Provides antioxidant support throughout the body *
- Helps maintain the integrity of cellular function*
- Supports healthy immune function*

General Health

- Promotes eye health*
- Supports and promotes the immune system*
- Supports the body's ability to regulate pro-inflammatory molecules, including C-reactive protein*
- May be applied externally as a topical to promote dermal health (see also our UNIQUE E® Mixed Tocopherols Concentrate Oil)*

The Science Behind the UNIQUEE Product

Vitamin E is a complex of eight molecules that work together synergistically. Taking a Vitamin E supplement with only d-alpha tocopherol instead of the entire mixed tocopherols family of isomers can actually deplete the level of d-gamma tocopherol in the body.

The mainstream medical community only recently recognized the importance of d-gamma tocopherol. But A.C. Grace has noted the importance of d-gamma tocopherol since 1962. Our proprietary formula of concentrated tocopherols is specifically designed to provide the highest biological activity and maximum synergistic benefits of the all-natural complex.
