Automotive Digital Asset Management Solution

iPacket perfectly bridges the gap between **full digital retail** and **traditional car sales**. iPacket is an EASY-TO-USE solution that enables **on-site** or **remote** sales and BDC professionals to present and sell vehicles digitally.

AutoiPacket is a 100% automated, which means no extra work for your team.

No printing, No scanning, No uploading Required!

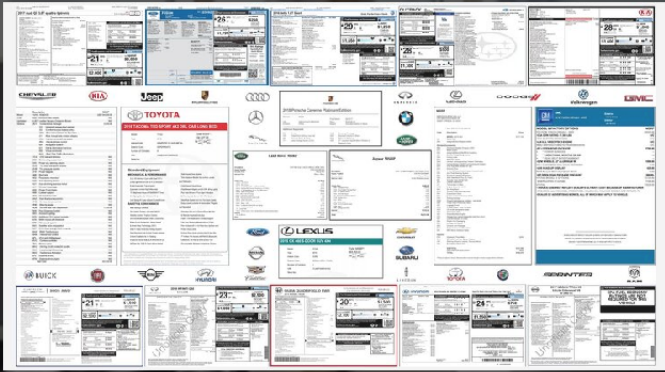

User On-boarding, Training & Activation in as fast as 7-10 days.

Zoom Integrated

AutoiPacket is now integrated with **ZOOM Video Conferencing**, allowing your sales team to **easily host virtual meetings** with their customers instantly.

to easily host virtual meetings with their customers instantly.

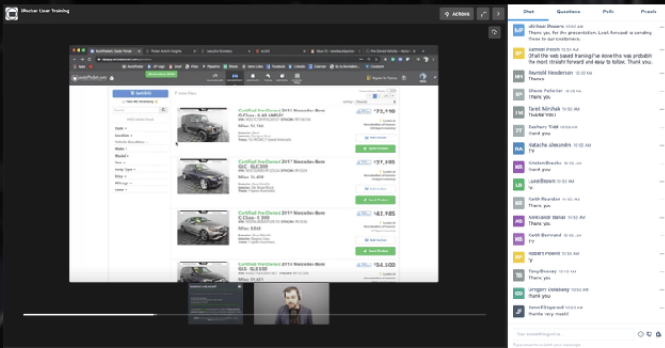

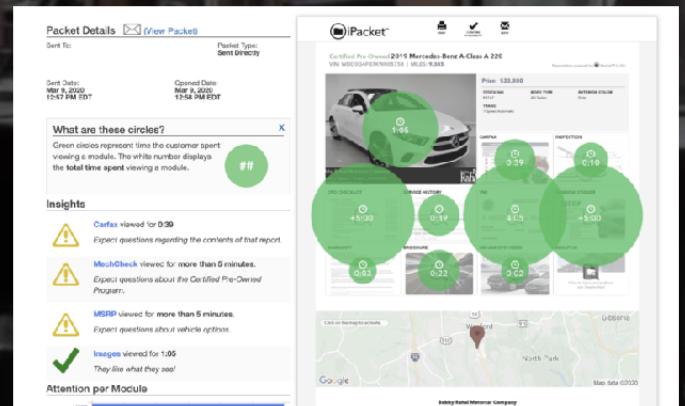

OEM Window Stickers/Build Sheets

iPacket integrates with nearly **EVERY vehicle manufacturer** to provide unedited, **OEM window stickers or build sheets** for your vehicle inventory.

Insight Micro-data Heat Mapping

iPacket heat maps of **INDIVIDUAL CUSTOMER'S** engagement identifying each document that was clicked on and how much time was spent viewing the information. The perfect way to identify potential questions and objections!

User On-boarding/Training

iPacket solutions are incredibly easy to use! New user training takes less than 30 minutes and is hosted **LIVE** every weekday at 2:00 pm. During training, you're going to **learn proven pre-number process strategies** that we have documented from working with over 1,000 dealer locations. Additionally, you'll learn everything from the fundamentals of building value to using specific documentation to completely change a client's decision-making process and how to use individualized **micro-data points to literally read your customer's minds!**
