

# A Smarter Credit Score Solution

Credit Score solution for every online and mobile banking platform.  
Increase engagement. Build deeper relationships.

[Watch video](#)

# Empower your users to take control of their credit

Help them understand their credit score, factors that impact it, and what they can do to strengthen it.

SavvyMoney is the only solution that provides comprehensive credit score analysis, full credit report, monitoring, and personalized offers—all in one dashboard.

# Integrate credit score functionality into your mobile and online banking.

Give your users convenient access to score updates, credit alerts, monitoring, and instant offers, right in online banking. You'll see higher engagement, and build stronger relationships.

The screenshot displays a banking interface with an 'Account Summary' table and a circular overlay showing a credit score of 801. The table lists various deposit accounts, and the overlay provides a detailed view of the credit score, including a rating of 'EXCELLENT' and a recommended offer for a rewards card with a balance transfer of \$2,458.
