

*Your Single Source  
for Pilots and Crew.*

JetPro Pilots is owned and operated by professional pilots who understand business aviation. We provide pilots, flight attendants and technicians for a diverse range of clients on a variety of jet aircraft. We have the passion and expertise to seamlessly connect the highest qualified, safe, proficient and current crews with the flight departments of world-class corporations. JetPro Pilots is the employer of record for its flight crews. This gives you complete confidence that your liabilities and risk are reduced, and things are done right. Let us do the background work to get the crews hired and minimize your administrative efforts.

■ PROFESSIONAL PILOTS

At JetPro Pilots, we are highly selective when choosing our pilots. We screen for many hours of experience and a history of safety. Our Pilots are all Captain Qualified.

■ FIRST-CLASS FLIGHT ATTENDANTS

Our flight attendants are Safety-Trained, Professional, and Confidential. They have the culinary skills and personal touch to add that extra layer of comfort for your passengers.

■ METICULOUS MAINTENANCE TECHS

Our technicians can be used to adjust and adapt to the varying needs of your flight department, providing optimal flexibility for ground crew staffing.

### OUR SERVICES

JetPro Pilots offers a strong network of pilots and crew members that you can leverage to find your perfect crew.

Once we find the right crew for your trip, they'll work to get your passengers where they need to be, on time and safe. Then you will receive a consolidated invoice for the whole month. JetPro Pilots handles all of the HR and administrative work. Clean. Simple. Friendly.

## EXPENSE REPORTING SOFTWARE CUSTOMIZED FOR BUSINESS AVIATION

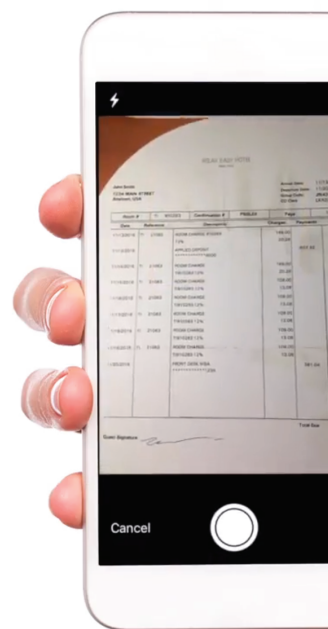

JetPro Pilots is a people company that believes in utilizing technology to its fullest. We feel strongly that our people should be working the most important things and not spending too much time on menial tasks that can be made faster and easier with the right kinds of software systems.

We have designed infrastructure with several concepts in mind:

- Designed specifically for business aviation
- Simple and user friendly
- Reduce or eliminate paper
- Convenient expense reporting for crew members
- Efficient processing for Operations Team
- Reduced overhead results in lower markup and lower costs for our clients

Our exclusive TripTrac™ mobile app is designed for pilots and flight attendants to take advantage of the cameras on their smartphones and the Internet to make expense reporting as straightforward as possible. If a crew member does not have a smartphone, the software can also be accessed on a PC or tablet. TripTrac™ is made available, at no cost, to all of our crew members to process their expense reports. Basic trip information is entered, the expenses and receipts are captured using the camera on the smartphone, and everything is submitted electronically. Simple and efficient, like it should be.
