(/Products/ClientTestimonials)

- Automate and submit multiple Mail.dat files to PostalOne!, simultaneously.
- Receive automated delivery of PostalOne! UPD and finalized (FIN) statements, confirmation pages, XML files, etc.
- Edit Mail.dat files using our DAT-MAIL™ Editor and stop wasting time re-running files through Presort.

- Use Quick-Fix™ to correct Mail.dat validation errors in real time.
- Notify staff of PostalOne! upload errors/successes automatically via email or text.
- Integrate your postage data with other internal systems (accounting, customer service, etc.) for a seamless workflow.
- Create a fully lights-out environment where files are processed, uploaded and postage statements are returned with no human interaction.
