ARE YOU A MANAGED SERVICE PROVIDER?

YES NO

I have read and accepted the [Agreement](#). If you do not accept the Agreement, do not install or use the Software or Services.

Yes! I'd like to receive occasional promotional emails from Kaseya.

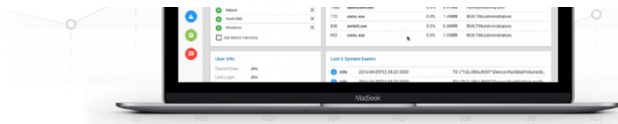

START MY FREE TRIAL

Kaseya has a competitive advantage because they have really taken the opportunity to listen to their clients. It's a practical approach to business, but the changes have been extraordinary.

Greg Mack
Systems Engineer, Dataprise

REMOTE CONTROL

Harness the power of Live Connect and never have to interrupt your users when connecting

Kaseya VSA was built to solve the problems that mean the most to you – delivering better service and improving your team’s efficiency. Explore Kaseya’s feature-rich platform and we’re sure you’ll find the solutions you’re looking for.

PATCH & VULNERABILITY MANAGEMENT

Unify software management for Windows, Mac, & 3rd Party applications

AUDIT & INVENTORY

Discover and track every system and software detail – no matter where the machine is located

NETWORK MONITORING

Alert and instantly auto-remediate changes in your environment

ANTI-VIRUS & ANTI-MALWARE

Configure and deploy AV/AM across your entire network

See for yourself why thousands of IT departments and Managed Service Providers (MSPs) trust Kaseya to help them deliver higher service quality and achieve greater IT efficiency.

AUTOMATION

Drive scale and consistency through policy-based automation

UNIFIED BACKUP

Deploy the world’s best DRaaS and BCDR services in an integrated appliance-based platform

COMPLIANCE MANAGER

Perform assessment, risk analysis, network scanning and generate GDPR approved documentation.

OFFICE 365 BACKUP

Comprehensive protection, automatic backup, restore and reporting.

Providing software solutions that take the complexity out of IT management, because we know the success of your business depends upon managing IT more effectively, efficiently and securely.
