Vorex has proven to be the simple, yet effective business management solution our software consulting firm needs to grow ... Featuring a built-in CRM. And, with a robust set of time and billing features, Vorex has delivered simplicity without compromising our functionality.

Sally Kindsfater
Total Stream Systems

HELP DESK & TICKETING

Better track service tickets until customer issues are resolved and capture more billable revenue.

Vorex gives you an easy way to track service tickets through to completion, resulting in improved customer service and greater profitability. Never lose sleep again over the possibility of unbilled hours for a project or risk leaving money on the table.

PROJECT MANAGEMENT

Provides real-time access to project statuses and eliminate updates from team members.

RESOURCE ALLOCATION

Better plan for and bid on future projects, make staffing decisions on current tasks, and ensure that everything is done on-time and within budget.

Vorex has proven to be the simple, yet effective business management solution our software consulting firm needs to grow ... Featuring a built-in CRM. And, with a robust set of time and billing features, Vorex has delivered simplicity without compromising our functionality.
Sally Kindsfater of Total Stream Systems

Providing software solutions that take the complexity out of IT management, because we know the success of your business depends upon managing IT more effectively, efficiently and securely.
