

**Package shipping has never been so quick and easy!
We can save you time AND money!**

Enterprise Shipper™ is Window Book's easy to use and economic package shipping system. It combines the best of traditional client/server and web-based architecture to provide:

- local storage of your shipping data
- exceptional real-time integration with on-premise order management or ERP systems
- a responsive and intuitive user interface
- fast label generation
- high performance scale interface
- cloud based delivery tracking and notification

Enterprise Shipper is also a multi-carrier shipping system that currently supports UPS, FedEx and USPS parcel shipping and features rate shopping across all these shippers. This rate shopping is rules based for both manual carrier selection or automatic carrier selection. More carriers will be added based on demand.

USPS® packages are paid using "ePostage", a new payment technology that is easy to work with, e-VS or "PC Postage". In all cases no local USPS approvals are needed and with e-Postage and PC Postage, you control the funding.

Enterprise Shipper's Workflow options help you ship faster.

Whether you want to batch process an imported order file or lookup address or order information from a local data source in real time, Enterprise Shipper has you covered. Advanced automation is also built in to reduce the amount of labor wherever possible. Whether you ship 10 packages per day or 10,000, Enterprise Shipper can be configured to meet your needs.

Enterprise Shipper helps you ship less expensively.

Enterprise Shipper provides mailers approximately 15% off Commercial Plus postage rates on International First Class, International Priority and International Priority Express when postage is paid via ePostage.

Enterprise Shipper currently supports shipments of these classes of US Mail:

- Priority Express® parcels
- Priority Mail parcels and flat rate envelopes
- First-Class® parcels

- First-Class flats *
- First-Class letters*
- Bound Printed Matter parcels
- Library Rate parcels
- Media Mail parcels
- Parcel Select® Ground parcels
- International First-Class Mail
- International Priority Mail
- International Priority Express Mail

*Requires PC Postage payment

It can also support multiple UPS and FedEx accounts, perfect for fulfillment operations.

If you are paying too much for your current multi-carrier system or unhappy with it for any reason or still using carrier supplied "free" shipping systems, checkout Enterprise Shipper today!

For sales inquiries or requesting a quote, email sales@windowbook.com (<mailto:sales@windowbook.com>) or call 800-524-0380 (tel:+1-800-524-0380). We also offer demos of our products.
